A Balanced World: Make It Real!

America is experiencing unprecedented economic challenges. Unprecedented in terms of global, technological and media influences. Just about every person, business, institution and household is impacted in some way. The cause? "**Imbalance.**"

It's a safe bet you've not heard the causes and effects of our economic challenges summed up in just one word. One word is not enough to fill newspapers, air time, or satisfy the plethora of cable analysts and pundits. However, one word activated is enough to re-align any imbalance. That word is "**Balance.**"

The infinite universe operates effectively on balance, a.k.a. The Law of Polarity. If something perceived as bad did not exist, how would we know when we have it good? A court system operating without balanced justice is recipe for mass chaos. A government void of balance through freedom of the press and speech is breeding ground for corruption. Corporate leadership without diligent checks and balances is... Need I say more?

Understanding and applying the Universal Law of Polarity in our own life is reassurance that no matter the circumstances, events or challenges we face, a full spectrum of possibilities exist to restore balance. By working together for a balanced good, we can create and enjoy a life experience that can restore light from any darkness. Balance makes our world go round.

Make it real!
